Combination Square Set 300mm - Series: ITI-CSS-300

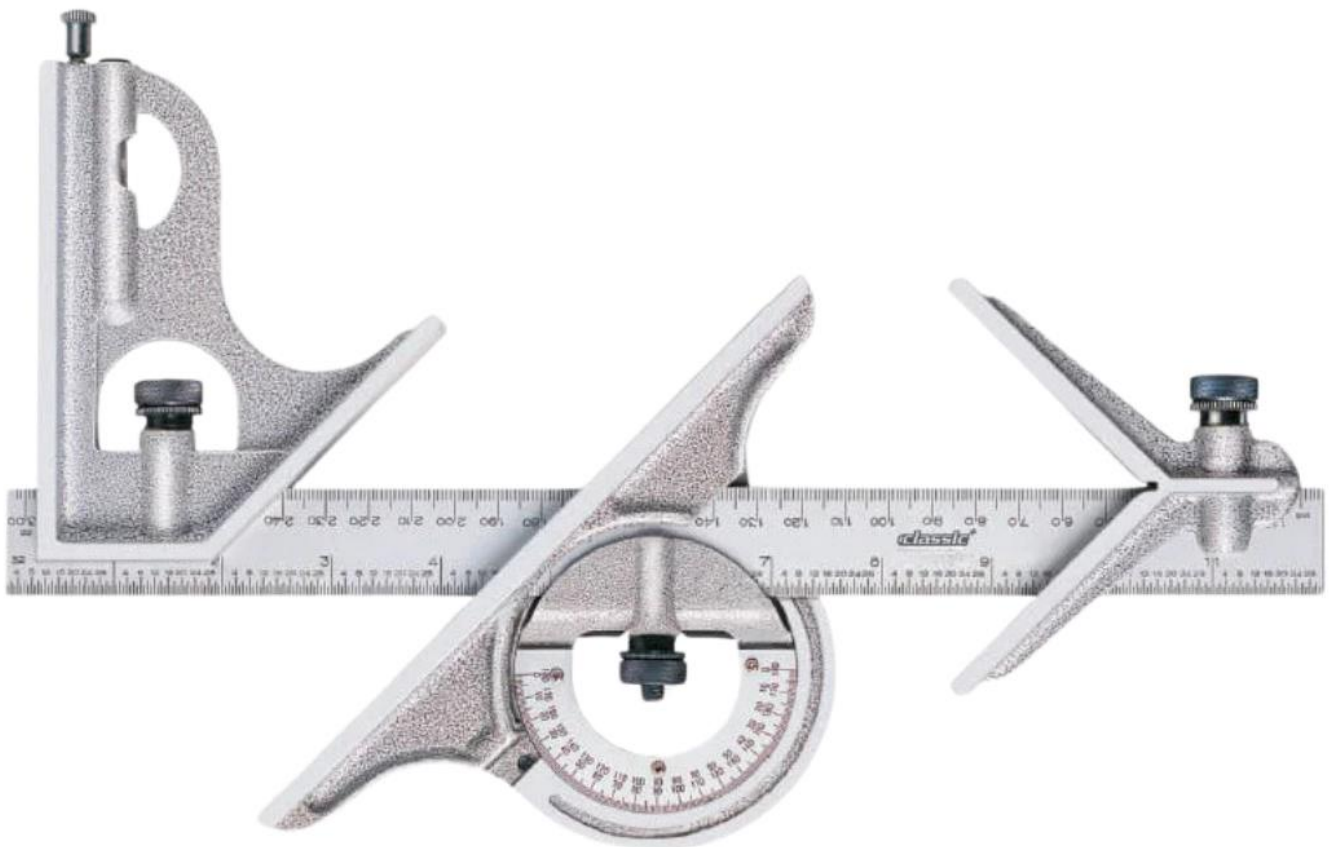

Three measuring heads are attached to the stainless steel rule (blade), allowing versatile measurements on various types of workpieces.

- The measuring heads are hardened.
- Economy sets not including a protractor head are also available.

Technical Data:

- Center head: Used to locate centers of round workpieces
- Protractor head: Used to set the rule at a desired angle to an edge of a workpiece. Also used for measuring angles.
- Square head: Used to set the rule at 90° or 45° to an edge of a workpiece.

Please Note: Also Available in Digital.
