2/3 Point Internal Micrometer Set - Series IMS

HOLE TEST

- Titanium coated measuring pins on the three point type (over 6mm range models) provide excellent durability and impact resistance and allow the instrument to measure right to the bottom of blind hole.
- Three point bore micrometer with measuring range 6mm or longer allows stable measurement through automatic centering.
- Can measure deep holes using an extension rod (optional) which is available on models over 6mm measuring range.
- Ratchet Stop ensures constant force, repeatable measurement.
- Setting Rings for accurately setting the instrument are optional.
